

Greenville Village Study

Please join us for our second public meeting!

At this meeting, we will continue the dialogue with the public regarding how Greenville should look and function in the future. The meeting will include a series of exercises meant to spur discussion and feedback using images of potential design and land use elements.

The Greenville Village Study will lead to a plan that will guide development and redevelopment in a manner that preserves the character of the Brandywine Valley National Scenic Byway. National Byway designation was approved in 2005 because of the spectacular scenery along the route, the history of the area and its cultural institutions. But most importantly, the Byway remains a special area due to the efforts of its citizens to protect and preserve the entire Brandywine Valley.
