

A National Scenic Byway

Delaware's Byways are special corridors recognized for their unique features and significant stories to tell.

Designated a National Scenic Byway in February 2021 for its rich history, the Delaware Bayshore Byway is the "Road Less Traveled". Driving it, you are welcomed to "Delaware's quieter and wilder side", a destination unto itself. Traveling the Byway is about making a conscious decision to get off the crowded, bustling highway of modern America, letting your senses take in the majesty and power of Mother Nature in the wildlife areas and coastal communities of Delaware's Bayshore.

The Bayshore area is a natural treasure in the middle of the heavily populated Mid-Atlantic corridor. With more than 30 million people living within a three-hour drive, the Bayshore provides low-impact access to a premier natural and historic destination.

What is a Discovery Zone?

Discovery Zones are destinations that embody activity areas where travelers can learn about the byway. Also byway users are able engage in outdoor recreational activities, other byway pursuits, events, and are directed toward visitor amenities. Each Discovery Zone has existing or untapped assets that tell the byway story and engage byway travelers.

#	Discovery Zone
1	New Castle
2	Delaware City
3	Port Penn/Augustine
4	Odessa
5	Cedar Swamp & Blackbird Creek
