HOW TO USE BIKE LANE CROSSING

Bikes use green crosswalk to continue.

HOW TO USE BIKE BOX

When signal is red and cars have come to a complete stop, bikes may position themselves in front of vehicles to enter intersection ahead of cars.

BIKE SIGNAL MEANING

4 Safety Tips for Bicyclists

- Ride right.** Ride in the direction of traffic—on the right—in the bike lane or in the middle of the lane if no bike lane is present. Don't ride in the wrong direction in a bike lane.
- Yield to pedestrians.** Ride carefully when near pedestrians. When crossing the street through crosswalks or in "scramble" intersections, pedestrians have the right of way.
- Light your ride at night.** Use a white front light and a rear reflector* (minimum required by Delaware law) when riding at night or in low-light conditions. *a flashing red rear light is even better
- Avoid sidewalks.** When a bike lane is present, don't ride on the adjacent sidewalk. In Newark, it is illegal to ride your bicycle on Main Street sidewalks.

What is a Sharrow?

Shared-lane pavement markings (or "sharrows") are bicycle symbols that are placed in the roadway lane indicating that motorists should expect to see and share the lane with bicycles.

See our educational video at [YouTube.com/watch?v=a9bpJB8EGjg](https://www.youtube.com/watch?v=a9bpJB8EGjg) or by capturing the QR code.

Bicycling Safely from N. College Avenue to S. College Avenue

Capture the QR code for our instructional video or go to [YouTube.com/watch?v=3U_wx_cEZ6Q](https://www.youtube.com/watch?v=3U_wx_cEZ6Q).

Know the Law in Delaware: The Bicycle Friendly Delaware Act

signed into law October 2017

For detailed information on this law, capture the QR code or go to tinyurl.com/bfda-info.

BFDA info produced by BikeNewark in partnership with Bike Delaware
